

Jaan Penjam	"Project status report"	Session 1 : E 14-18
Pavel Grigorenko	CoCoViLa- Visual Domain Specific languages and Automatic Synthesis of Programs	
Kai Koskimies	TBA (On project Practise / genetic synthesis of software architecture)	
Kari Systä	TBA (Software development / Clouds / User interfaces / Genetic algorithms)	
Samuel Lahtinen	TBA (Model Based Derivation of Speech Interfaces)	
Misha Matskin	TBA (On trust and privacy management / service analysis / service robots / smart services)	
Vahur Kotkas	Proposal for a new user interface and implementation platform for CoCOViLa (V2)	
Margarita Spitchakova	Specification of state transition models	
Hele-Mai Haav	Ontology of CoCoViLa	Session 2 T 11:30-13
Pavel Grigorenko	Expert decision tables in CoCOViLa	
Enn Tyugu	Synthesis of CoCoViLa	
Hannes Tarn	Modeling of production processes in Bole OÜ	Session 3 T 14-17
Aleksander Reitsekas	TBA	
Ahto Kalja	On student projects on MB software engineering in machine engineering field	
Mait Harf	Finite element method models (CoCOViLa applications in hydraulics)	
Andres Ojamaa	Simulations in CyberSecurity systems
